Asia Maritime Webinar Week

Ballast water compliance: no time to lose

Wed 25 May 2022. 09:00-09:45 BST / 16:00-16:45 SGT

Full Agenda

Free Registration

With the deadline for compliance with IMO's D2 Ballast Water Performance Standard set for September 2024, shipowners that need to fit BWTS systems have no time to lose. This webinar will examine approved BWTS technologies, design challenges, ballast water testing, available drydocking space and financing strategies.

Join us as we discuss:

- Ballast water regulatory guidelines
- BWTS market size
- IMO and USCG-type approved systems
- Ballast water sampling and analysis

Meet your expert panellists:

Guillaume Drillet

Regional Manager for Asia & Oceania
SGS Testing & Control Services Singapore

Han Ding Hou

Product Marketing Manager - Water Solutions
Wilhelmsen Ships Service

Philip Ho

Regional Head (Singapore)
Hong Kong Shipping Register

Martin Cresswell

Technical Director
Hong Kong Shipowners Association

Sanjeev Verma

Managing Director
Landbridge Ship Management (HK) Limited

Full agenda

Free Registration

Read more about the webinar, your panellists and how the session will run. You can submit your questions to the panel now by emailing Edwin Lampert, our Executive Editor & Head of Business Relations and webinar moderator at edwin.lampert@rivieramm.com.

Please contact me if you have any queries about joining or would like to be considered as an additional panellist for [Asia Maritime Webinar Week](#).

I look forward to welcoming you online,

Kym Tan,
